

THAPPED hands result from two causes. Too much alkali in the soap, which draws the natural oil from the skin, leaving it harsh, dry, and liable to crack, or the fats, from which the soap is made, are not properly combined with the alkali, so, from its greasy nature it is impossible to rinse off the soap after washing. Prof. Leeds, Ph. D., Stevens Institution of Technology, says: "The Ivory Soap, while strongly cleansing, leaves the skin soft and pleasant to the touch, instead of harsh, uncomfortable, and liable to chap."

A WORD OF WARNING. There are many white soaps, each represented to be "just as good as the "Ivory':" they ARE NOT, but like all counterfeits, lack the peculiar and remarkable qualities of the genuine. Ask for "Ivory" Soap and insist upon getting it. Copyright 1998, by Procter & Gamble,

The practice is abolished from The Beach & Bowers Minstrels, one of the best and most novel minstrel entertainment, now before the public, had an enormous audience at the Opera House Friday evening, when the first Hopkinsville performance of the company occurred. It was an enthusiastic gathering, too, and it applauded with great vociferation almost everything that was presented by the company. We do not remember ever having met with so many novel features of negro men than to suppose it manly, by and remember ever having met with an misselsy as are presented in the Beach & Bowers show. There is nothing old or threadbare from the first song to the last farce, and the whole show moves with spirit and speed. The new first part, with it handsome contemes and other new features, made the biggest kind of a hit, and the singing and instrumental music were heartily applauded, and numerous other specialties, including
